INDEX OF SUBJECTS

Titles of books are followed by the name of the author of the work reviewed. All other references are original articles.

Ability, junior high school pupils, sex differences, mental, 83.

Acceptance-rejection theory, objective and subjective measurement of interests, 549.

Achievement, effect of mental age, foreign language, 257; ——, with teachers' judgments of children's intelligence, school for deaf, correlation of non-language tests with each other with school, 371.

Adolescent, his conflicts and escapes, the (Schwab and Veeder) 98.

Adults and children, recall values, positive and negative advertising appeals, 218.

Advertisements, reliability, order of merit evaluations, 532; ——, sales results, positive and negative, 363.

Advertising appeals, adults and children, recall values, positive and negative, 218.

Age, foreign language achievement, effect of mental, 257; ——, mental capacity, sex ratios, children, special classes, differences in chronological, 1.

Appeals, adults and children, recall values of positive and negative, 218.

Block-design test, standardization, Kohs', 178

Bookkeeping, factors influencing school success, 74.

Capacity, sex ratios, children, special classes, differences in chronological age, mental, 1.

Central tendency, aesthetic judgments, variability, 137.

Children at the crossroads (Benedict), 305.

Children, comparative study, physical growth, dull Italian, 376; ——, delinquent girls, mental development, 287; —— in a school for deaf, correlation of non-language tests with each other, with school achievement, teachers' judgments, intelligence, 371; ——, recall values, positive and negative advertising appeals, adults and, 218; ——, special classes, differences in chronological age, mental capacity and sex ratios, 1.

Chronological age, mental capacity, sex ratios, children, special classes, differences, 1.

Clinic, results secured, psychoeducational, 160.

College, prognosis and diagnosis of success, 612.

Context, relative effects of size of type, leading, 63.
Courses, English composition, five-year study, objective tests for sectioning, 202.

Data, calculation of R, Pearson-products-moment method, empirical study, effects of grouping, 182.
Deaf, correlation, non-language tests, school achievement, teachers' judgments of children's intelligence, school for, 371.
Decline of intelligence, general information and intelligence, 592.
Delinquent girls, mental development in children, 287.
Design test, standardization, Kohs' block-, 178.
Developed lessons in psychology (Meltzer and Bailor), 192.
Development in children, delinquent girls, mental, 287.
Diagnosis of success in college, prognosis, 612.
Differences in knowledge of psychology before and after, first course, sex, 107;—— in mental ability among junior high school pupils, sex, 83.
Drawing test, growth of intelligence, measured by Goodenough, 239.
Dull Italian children, comparative study, physical growth, 376.

Educational Clinic, results in psycho-, 160.
Elements of human psychology (Warren and Carmichael), 641.
Emotional insight, test, 122.
Emotions, influenced by courses, psychology scores, Pressey X-O tests, 150.
English composition, five year study, objective tests for sectioning courses, 202.
Epileptics, physical and mental traits, relatives, 620.
Equivalence, test forms, practice effects, 211.
Exercises for the rapid reading of scientific German psychological text (Duncker and Watt), 644.
Experiment, class shopping, 42.
Experiments in general psychology (Scheidemann), 193.
Experiments in psychology (Foster and Tinker), 193.
Experiments with racial groups, reaction time, 557.

Factors influencing speed of reading, effect of practice, equivalence of test forms, 211.
Fiction, blindness in, 269.
Formula (n = 2), table for finding probable error, R obtained by use, Spearman-Brown, 296.
Foundations for human engineering (Gow), 639.
Foundations of experimental psychology, the (Murchison, editor), 102.

General psychology for college students (Rexroad), 99.
Girls, mental development in children of delinquent, 287.
Goodenough drawing test, growth of intelligence, 239.
Great experiments in psychology (Garrett), 644.
Grouping data, calculation, R, Pearson products-moment method, empirical, 182.

Growth, dull Italian children, comparative study, physical, 376; ——, mental, 517.

High school pupils, sex differences in mental ability, junior, 83; —— school survey, gifted pupils, Iowa, 566.
How to find the right vocation (Kitson), 400.

Information, intelligence and its decline, general, 592.
Insight, test for emotional, 122.
Intelligence, its decline and general information, 592; ——, measured by Goodenough drawing test, growth, 239; ——, school for deaf, correlation, non-language tests, school achievement, teachers' judgments, children's, 371.
Interests acceptance-rejection theory, objective and subjective measurements, 549.
Iowa high school survey, gifted pupils, 566.
Italian children, comparative study, physical growth, dull, 376.

Judgments, variability and central tendency, aesthetic, 137.
Junior high school pupils, sex diffences in mental ability, 83.
Just normal children (Mateer), 305.

Kohs' block-design test, standardization, 178.

Laboratory psychology, project method, experiment in teaching, 309.
Language achievement, effect of mental age, foreign, 257.
Leading and context, relative effect, size of type, 63.

Measurement of interests, an acceptance-rejection theory, objective and subjective, 549.
Measuring musical taste, method, 355.
Mental ability, junior high school pupils, sex differences, 83; ——, age, foreign language achievement, effect, 257; —— and physical traits, relatives of epileptics, 620; —— capacity and sex ratios, children, special classes, differences in chronological age, 1.
Method, empirical study, effects of grouping data, calculation R, Pearson products-moment, 182; ——, experiment, teaching laboratory psychology by project, 309.
Musical taste, method for measuring, 355.

Negative advertising appeals, adults and children, recall values of positive, 218; —— advertisements, sales results, positive and, 363.
Non-language tests, school achievement, teachers' judgments, children's intelligence, school for deaf, correlation of, 371.
Normality testing, departure from, 91.

Order of merit, evaluation, advertisement, reliability of, 532.

Pattern of life, the (Adler), 399.
Pearson products-moment method, empirical study, effects, grouping data, calculation of R, 182.

Photograph in selection of teachers, value, 54.
Physical growth, dull Italian children, comparative study, 376.
Point scale of performance tests, a (Arthur), 306.
Positive and negative advertising appeals, adults and children, recall values, 218; ——, negative advertisements, sales results, 363.
Practice effect, equivalence of test forms, 211.
Pressey X-O tests, emotions, influenced by courses in phychology, scores, 150.
Principles of psychophysiology, the (Troland), 642.
Probable error of R obtained by Spearman-Brown formula (n = 2), table for finding, 296.
Products-moment method, empirical study, effects of grouping data, calculation of R, Pearson, 182.
Professions, personality traits and different, 197.
Project method, experiment, teaching laboratory psychology, 309.
Psycho-educational clinic, results, 160.
Psychologies of 1930 (Murchison), 645.
Psychology before and after first course, sex differences in knowledge, 107; ——, project method, experiment in teaching laboratory, 309; ——, scores, Pressey X-O tests, emotions, influenced by courses, 150.
Psychology—revised edition (Woodworth), 99.
Pupils, Iowa high school survey, gifted, 556; ——, sex differences, mental ability, junior high school, 83.

Questionnaire procedure, uses and abuses, 32.

R obtained by use, Spearmen-Brown formula (n = 2), table for finding probable error, 296.
Racial groups, reaction time experiments with certain, 557.
Ratings, studiousness traits, analysis of self-, 577.
Reading, effect of practice on equivalence, test forms, typographical factors influencing speed, 211; ——, studies of typographical factors, influencing speed, 211.
Rejection theory, objective and subjective measurements of interests, acceptance-, 549.
Relatives of epileptics, physical and mental traits, 620.
Reliability, test scores, nomogram for checking, 609.

Sales results, positive, negative advertisements, 363.
School achievement, teachers' judgments of children's intelligence, school for deaf, correlation of non-language tests with each other, with, 371; —— pupils, sex differences, mental ability, junior high, 83; ——success in bookkeeping, factors influencing, 74; —— survey, gifted pupils, Iowa high, 566.
Science of psychology, the (Wheeler), 99.

Scores, nomogram for checking reliability, test, 609.
Selection, teachers, value of photograph, 54.
Self-ratings on studiousness traits, analysis, 577.
Sex ratios, children, special classes, differences in chronological age, mental capacity and, 1.
Shopping experiment, class, 42.
Size of type, leading and context, relative effects, 63.
Spearman-Brown formula (N = 2), table for finding probable error of R obtained by use, 296.
Special classes, differences in chronological age, mental capacity, sex ratios, children, 1.
Speed of reading, typographical factors influencing, 211.
Standardization, Kohs' block-design test, 178.
Strategy in handling people (Webb and Morgan), 640.
Students, intelligence of summer- compared with regular-session, 600.
Study, effects of grouping data, calculation, R, Pearson products-moment method, empirical, 182; ——, objective tests for selecting courses, English composition, five year, 202; ——, physical growth, dull Italian children, comparative, 376.
Subjective measurement of interests, acceptance-rejection theory, objective, 549.
Success in bookkeeping, factors influencing school, 74; —— in college, prognosis and diagnosis, 612.
Survey, gifted pupils, Iowa high school, 566.
Syllabus work-book in elementary psychology, a (Remmers and Brandenburg), 192.

Taste, method, measuring musical, 355.
Teachers, value of photograph in selection, 54.
Teachers' judgments of children's intelligence in school for deaf, correlation of non-language tests, school achievement, 371.
Teaching laboratory psychology, project method, experiment, 309.
Tendency in aesthetic judgment, variability and central, 137.
Test for emotional insight, 122; —— forms, typographical factors, influencing speed of reading, effect of practice, equivalence, 211; ——, growth of intelligence, measured, Goodenough drawing, 239; ——, scores, nomogram for checking reliability, 609; ——, standardization, Kohs' block-design, 178.
Testing of departure from normality, 91.
Tests, emotions, influenced, courses in psychology, scores in Pressey X-O, 150; —— for sectioning courses, English composition, five year study, objective, 202; ——, with school achievement and teachers' judgment children's intelligence, school for deaf, correlation of non-language, 371.
Theory, objective and subjective measurements of interests, acceptance-rejection, 549.

Time experiments, racial groups, reaction, 557.
Traits, analysis, self-ratings, studiousness, 577; —— and different professions, personality, 197; ——, relatives of epileptics, physical and mental, 620.
Type, leading and context, relative effects of size, 63.
Typographical factors influencing speed of reading, effect of practice, equivalence, test forms, 211.

Values, positive and negative advertising appeals, adults and children, recall, 218.

Wirkungsformen der Ubung (Kern), 398.

INDEX OF AUTHORS

The names of authors of original contributions are printed in CAPITALS AND SMALL CAPITALS.

Anderson, A. C., 401, 536.
BAILOR, E. M., 107.
BENSON, C. E., 218, 363.
BROOM, M. EUSTACE, 83.
BROWN, ANDREW W., 371.
BROWN, A. JEAN, 178.
BROWN, RALPH R., 621.
BUNCH, MARION E., 150.
Burtt, Harold E., 399, 537, 641.
CONRAD, HERBERT S., 592.
CUFF, NOEL B., 612.
CURETON, EDWARD E., 91.
DASHIELL, J. F., 197.
Dockeray, F. C., 102, 193, 194.
DOUGLAS, JOSEPHINE, 494.
DUNLAP, JACK W., 91.
EDGERTON, HAROLD A., 296.
EURICH, ALVIN C., 577.
FRYER, DOUGLAS, 549.
Gentry, J. R., 99, 538.
GERBERICH, J. R., 566.
GRIFFIN, HAROLD D., 609.
HANSEN-TYBJERG, CHR., 451.
HARTSON, L. D., 202.
HEVNER, KATE, 309.
HIGHSMITH, J. A., 486.
HOVDE, HOWARD T., 63.
ISRAELI, NATHAN, 137.
JOHNS, W. B., 54.
JORDAN A. M., 517.
KAULFERS, WALTER VINCENT, 257.
KEYS, NOEL, 600.
LANGWORTHY, JESSICA L., 269.
LAUER, ALVHH R., 182.
LAWSON, J. W., 494.
LIVESAY, T. M., 557.
LOUTTIT, C. M., 557.
LUCAS, D. B., 218, 363.
McGEOCH, JOHN A., 150.
MARTZ, EUGENE W., 287.
MELTZER, H., 107.
MONROE, ALAN H., 516.
NATHANSON, YALE S., 469.
NEWHALL, SIDNEY M., 532.
PATERSON, DONALD G., 211.
Patrick, James R., 400.
PHILLIPS, D. E., 42.
REED, ERNEST, 600.
RUCKMICK, CHRISTIAN A., 32.
SALISBURY, FRANK S., 425.
STEDMAN, MELISSA BRANSON, 74, 505.
